10/8/2023	Randy	Meathrell	rmeathrell@aol.com	United States	AZ		Chino Valley	Chino Valley Flyers	136	130 flights by a 42 inch Electric foam Ringmaster. 126 were flown on Saturday in 4 hours' time. 4 more flights by the same model on Sunday. 6 flights by a Fox 15 powered Wood Ringmaster were also flown on Sunday.	8	Randy Meathrell, Jeff Moser, Rick Nichols, Terry Stener, Steve Zingali, Dave Domzalski, Harold Ellis and Gene LaFallo.	The electric model was set up to fly for 30 seconds, which gave 6 1/2 laps. Upon landing the electrical system was reset after waiting the desired time. Then the model was flown again. The models battery provided energy for (6) 30 second flights but was changed after 5 flights. Each pilot on the list flew 20 times except Harold Ellis (10) flights and Gene LaFallo who flew 6 times. Batteries were kept freshly charged so the next pilot could be made ready with minimal down time. Fun Event.	5

The weather was phenomenal! Phil Kenney cooking lunch by the circle was so appreciated! Once again we witnessed the strange phenomena of the sun being blotted out. We believe there might be a rather large Ringmaster that has been spotted near St. Louis over the years, and is capable of blotting out the sun! We are glad we could take part in this very unique event that spans the globe! God Bless Everyone!	5

Bright, sunny skies, mid 70s temp, and a very light breeze made the weekend more perfect. With 171 flights, the WICHITAWKS contributed more flights in one weekend than we have in all the years of our participation, combined! Part of our success was the use of the EP setup on two of the Ringmasters. An S-1 made 100 flights on Sunday. Fun time, no crashes!	5
10/15/2023	Myron	Firmin	mpf56@yahoo.com	United States	LA		Terrytown	New Orleans Ring Masters Control Line Flying Club	182	Ringmaster S-1 glow (5), Ringmaster S-1 elec (3), Ringmaster Jr Twin elec (1), Ringmaster 576 glow (1), Baby Ringmaster glow (1)	10	M. Firmin, Monster, F. Famularo, M. Giroir, M. Kottemann, M. Fisman, D. Bertran, N. Liuzza, E. Shearer, J. Oufnac	A good time was had by all 10 pilots with sunny skies and stiff breezes. We flew 183 Ringmaster flights and many stories over the two days. Crashes, there were some, but they will be repaired and go on to fly again. "John, thank you for all of your efforts to keep the Fly A Thon going!"	5

10/10/2023	Timothy	LaNore	timbo_422@outlook.com	United States	MD		Upper Marlboro	Skylanders Of Washington / PGRC	417	Baby Ringmasters (electric), Jr Ringmasters(electric), Profile Ringmasters (glo), Imperial Ringmaster (glo)	8	Tim LaNore, George Marenka, Rich Coleman, Kathleen LaNore, Roy Johnson, Scott Schmidt, Alexander Schmidt, Yelana Schmidt, John Vlna, Jonathan LaNore	We had rain early on Saturday with clearing skies but windy. We had 7 pilots on Saturday. Sunday was sunny all day but stronger winds than predicted. We had 8 pilots on Sunday. Despite the weather and a big cookout on Sunday, we put up a good number of flights. My suggestion is to not change a thing. The 5 lap rule and the addition of a make up weekend due to weather, etc are the only changes that were necessary while not reducing the "fun" factor.	5
10/17/2023	John	Paris	parisjm2@aol.com	United States	MI		Chesaning	Chesaning Model Airplane Club	261	S-1 Ringmaster Glow Power (4), S-1 Ringmaster Electric (4)	5	Mike Reemtsen, Dale Wenzlick, Chris Ligt, George Heiman, John Paris	30 seconds on the ground for the throttled pilot is a long time. Consider shortening it up to 10 or 15 seconds.	5

Some of the Henderson Hobbies Combat team flew with the Detroit Combat team at the iconic Detroit Rouge Park This field dates back to the 1950s. At RCCD in New Haven, Dick Babish the most senior pilot at 88 was lapping the flights as others in their early 80s were showing us how to put the flights up at both locations. Our senior combat pilots really know how do it.	5

Beautiful day with the odd thermal coming through the field. You know, start a wingover up wind and find out the thermal is now upwind when you're going over the top. I do wish they'd travel slower sometimes. But, generally just nice weather. Reliable enough setup that only 3 times did I have to walk across the field to bring the plane back. Most of the time it shut off with a gentle glide back to the stooge. Worse case was a little whipping. It made getting the flights in quick.	5

We had pilots from four (4) different organizations participate in this year's Fly-a-Thon activities. Flight activities included separate individual flights. Additionally, this year's flight included two and three "in the circle." This is our club's season high point!!!	5

Members who accomplish the goal get a T-shirt and bragging right for making it in. Our club flew both Saturday and Sunday with a total of 7 pilots in two flying circles flying 157 flights. This is without a doubt our favorite event each year as everyone just relaxes and has fun. Sadly everyone just plain forgot to take a group photo this year.	5

Great event that Thunderbirds like to participate each year. Each year we endeavor to exceed last years flights. Last year 224 this year 282. So I guess next year we will be aiming for 300. Club members think this is quite doable. Members are already planning their build for next year. Thank you for overseeing a great control line event that all control liners thoroughly enjoy. Thunderbirds will be back next year!
