10/7/2024	John	Rist	john.rist@reagan.com	United States	AL		375 Orvil Smith Road	North Alabama Control-line Association, NACA	166	S-1 Ringmaster, 576 Ringmaster, Ringmaster JR, 1/2 A ringmaster	4	John Cameron, Ty Marcucci, Ronnie Thompson, Joe Lacey	I have installed a RC throttle to my E-576 Ringmaster. With it you can take off, fly 5 laps and land. he process is repeated un till the battery is spent. We were getting 10-12 flights per battery pack. John Cameron, Ty Marcucci and Ronnie Thompson flew 5-1 ringmasters. Ronnie was flying the full pattern. A sight to behold. Joe Lacey flew his Ringmaster JR and his 1/2A ringmaster. Three of the 4 pilots flew the 576. Due to a bad back I didn't fly. 106 flights Saturday & 60 on Sunday. FUN!!!	5

The participants enjoyed the shorter flights and the chance to practice more take offs and landings. Things moved along at a considerably faster pace.	5

Many of these were throttle.	10	Tim LaNore, Kathleen LaNore, Jonathan LaNore, George Marekka, John Vina, Joe Pekney, Rich Coleman, Scott Schmidt, Yelana Schmidt and Andrew Wohl.	The Skylanders Of Washington had great weather on Oct. 5th & 6th. We had 8 pilots on Saturday & 10 on Sunday. With our throttle planes we fully complied with the 5 lap rule landing on the 6th before repeating the process until running out of fuel or electrons. We had many flights with 2 or more planes flying at the same time. Our Big cookout on Sunday hindered our flights for that day. Moving forward we feel that no further tweaking of the rules is necessary. Over regulating KILLS the fun.	5

Two new pilots at the event, the rookie father & son guys putting their marks on the total flights. Two senior pilots, one at 88 and the other 84 the guys won't ever stop flying also added high numbers to the tally. Team leader Ray Van, the spark plug in the group, a taskmaster demanding pilots upper limits. We are seasoned competitive combat team flying short tanks & bladders. Our pitman are experts at starting hot engines getting the planes back in the air.	5
10/6/2024	Tim	Verthein	minoxphotographer@yahoo.com	United States	MN		Bovey, Minnesota Sports Complex		3	S-1 That I built 40 years ago	1	Tim Verthein	First time flying c/I in 40 years. Flying S-1 I built over 40 years ago. 1950's era Fox Stunt .35 (used to be my Dad's motor). Snuck in three flights at the public sports complex and only drew 2 curious kids on bikes. 23 hours later I'm still dizzy. 42 degrees. After three flights fingers were frozen. Nothing more than level flight with a couple wing-overs. Didn't want to press my luck. Plane still intact, not so sure about myself. 8 year old grandson was impressed. Comeback? Maybe.	5

It is our last major event, as it follows our Club Contest, Stunt Fest, that proceeds it in the last weekend in September. We have participated in all 17 past Ringmaster-a-Thons. Our contest has run for 19 years. We consider these as companion events. This year one of our 29 flights was Rowan and dedicated to honor Tom Morris, whose contributions to our sport has been legendary and significant. Tom certainly has our best thanks and wishes.	5

By far the hit of the day was Carl Foster's mini Ringmaster which he conceived built and finished last Sunday October 6, 2024! It did not do any stunts as all the others did but it was such a novelty that we all admired its performance! When the flying day was over some of us adjourned to Freddy's for burgers, fries and sodas! As the oldest member of the group I feel blessed, at 86.5, to have been allowed to enjoy the fun and fellowship!	5

Thanks to this event our numbers grow every year. This year we had 3 first time pilots, all who promised to return for fun next year. Everyone had a great time, lots of laughs and stories to tell. A real highlight for me was the founding member (1955) of my first CL club showed up unannounced to put in a few flights. What a treat!	5
